

200kWh British industrial server rack for workshop use

What are enclosures & server racking?

Enclosures and server racking are equipment housing solutions within any industrial and commercial work place. Products such as enclosures, general purpose enclosures, server racks and server cabinets protect technical and electrical equipment.

What is a UPS system rated at 200kVA?

A UPS system rated at 200kVA is used for server rooms, data centres and other critical environments. The kW-rating of such a UPS will vary depending on its output power factor. Monoblock UPS can be operated in a parallel/redundant N+X configuration to provide additional resilience.

Why do you need a server rack?

Racking ensures that this equipment is stored safely with little floor or shelf space. We also offer a range of rack mounting hardware, rack panels, rack rails, server rack shelves and server rack accessories providing solutions for server installation.

What is a HPE G2 rack?

Perfect for the server room or today's modern data center, HPE G2 Advanced Series Racks include a 3000 pound static capacity, design for better air flow, and cable management features. The welded frame is designed for durability and includes a door with greater perforation for better airflow.
