

Versatile configuration: use 30kW/80kWh as a basic build block to build up a larger system. Application: Commercial and industrial facility power back up such as office building, warehouse, company data ...

The SolarEast BESS is an all-in-one solar energy system that provides reliable power by combining an MPPT inverter, lithium battery storage, and a smart energy management system ...

Professional manufacturer of IP55 and IP65 rated cabinets including power storage cabinets, communication outdoor cabinets, battery cabinets, telecom cabinets, and industrial enclosure ...

Why Choose the BHF-X60? Scalable Power: Supports parallel connection of up to 10 units, reaching 300kW capacity. ? Fast Installation: Plug & Play setup in just 2 hours, with simplified unified...

The BHF-X60 cabinet can meet the energy needs of large residences and small businesses. Supports up to 200% PV oversizing capacity to ensure sufficient power and reduce dependence on the grid, ...

The Mini C&I ESS has numerous applications such as Microgrid, backup, off-grid peak shaving, time of use, self-supply, demand response, and Virtual Power Plant (VPP).

This project showcases a BESS for Power Backup in Nigeria, using a compact all-in-one system to build a localized "Power Hub" that supports off-grid operation and reliable backup supply.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

With enhanced power output in off-grid mode, it ensures reliable and uninterrupted energy supply even in challenging environments. Pre-wired for ease of use, the system allows for quick installation, ...
