

Aeolos 5kW vertical axis wind turbine is a low start wind speed, quiet, safe and reliable vertical wind turbine. We use outer rotor three-phase generator with a 1.5m/s start wind speed.

Light weight design and 85% generator efficiency reduce you payback time about 20%. 5 years standard warranty and 7X24 online technical supports. The design lifetime is 30 years.

The document provides specifications for the Aeolos-V 5kW wind turbine. It is a three phase, permanent magnet generator turbine that is 4.8 meters tall, weighs ...

Aeolos 5kw vertical axis wind turbine is a low start wind speed, quiet, safe and reliable vertical wind turbine. We use outer rotor three-phase generator with a ...

AEOLOS wind turbine windturbinestar Aeolos windturbine SINCE 1986 V 5kW Specification Generator Type: Three Phase Permanent; Magnet Rotor Height: 4.8 m (15.7 ft) Rotor Width: 4.5 m ...

Aeolos-V 5kw choose the larger rotor diameter, high efficiency generator and high Cp blades design to produce more power output than other 5 kw vertical wind turbines.

There are no power data deposited for this turbine. There are no models to this Windturbine. The wind turbine Aeolos-V 5kW is a production of Aeolos Wind Turbine, a manufacturer from United Kingdom. ...

High Efficiency Low Cut-in Wind Speed: Aeolos-V 5kW could start up with 1.5m/s wind speed and has the power output in 2.5m/s to inverter. This is more efficient than the vertical wind turbines with a ...
