

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense ...

The Arc Flash Protection option detects arc flash conditions in switchgear and operates circuit breakers to remove the current source from the arc, thus mitigating the potential damage to equipment.

Eaton Magnum DS arc-resistant low voltage switchgear protects personnel from dangerous arcing faults by containing and redirecting the arc energy, with ratings up to 100 kA for 0.5 seconds.

Supera el mayor nivel de protecci3n contra arco el3ctrico seg3n las normas GS-ET-29 y E DIN 58118, y est3 dise3ado para maximizar la percepci3n del color a transmitancia de luz visible. Especificaciones ...

Rapid arc flash detection and protection offer very fast and reliable interruption of an arc fault by tripping the upstream supply of energy to the faulted compartment.

The AQ 100 series of medium-voltage arc flash devices is built to meet the growing demands in MV switchgear and controlgear applications.

Safe and effective to group motor and power control in distribution applications with FlashGard™ MCC with arc-prevention technology and Arc-Resistant MCC with robust Type 2 arc-resistant construction ...

Cost-effective SEL arc-flash detection technology reduces arc-flash-related equipment damage for standard and arc-resistant switchgear in medium- and low-voltage applications.

Our arc-resistant switchgear is designed and tested to meet ANSI / IEEE C37.20.7 standards and represents years of research, design, and manufacturing refinements by Crown's expert team of ...

Supera el mayor nivel de protecci3n contra arco el3ctrico seg3n las normas GS-ET-29 y E DIN 58118, y est3 dise3ado para maximizar la percepci3n del color a transmitancia de luz visible. ...
