

Are there grid-scale energy storage projects in Thailand?

There are currently few grid-scale energy storage projects in Thailand, although the situation is likely to change. In furtherance of its commitments under the Paris Agreement, the Thai government has enacted policies which envisage renewable energy accounting for the majority of grid capacity and output by 2040.

Is energy storage a new business model in Thailand?

Energy storage is in its infancy in Thailand, and new business models are already emerging. As the regulatory framework adapts to accommodate new players in the market, we expect to see greater penetration in this area.

Notes Energy Policy and Planning Office, Ministry of Energy, electricity statistics

What are energy storage solutions?

Energy storage solutions can help stabilize your grid power with peak shaving and backup your renewable energy systems.

Why do you need energy storage solutions?

Energy storage solutions can help stabilize your grid power with peak shaving and backup your renewable energy systems, thus taking the stress out of your life and helping you grow your business, cut costs and hit green targets with reliable, flexible and quality power supply on demand
