

Chile Modular Energy Storage Cabinet Fixed Project EPC Contractor

Why is e-storage delivering a major project in Chile?

Colin Parkin, President of e-STORAGE, stated: "We are pleased to extend our energy storage expertise through the delivery of our first major project in Chile, supporting the government's ambitious goal of getting 70% of its electricity from renewable sources by 2050.

What will e-storage do under the EPC contract?

Under the EPC contract, e-STORAGE will manage all civil, mechanical, and electrical infrastructure for the project. Toshinori Kawahara, General Manager of ASC4, commented: "Building our energy storage project is a major milestone for ASC4. We are very pleased to be able to contribute to a stable supply of electricity in northern Chile."

What is Metlen energy & metals doing in Chile?

Greek industrial and energy group Metlen Energy & Metals (ATH:MYTIL) said on Wednesday that it has signed three new engineering, procurement and construction (EPC) contracts for energy storage projects in Chile. Energy storage battery. Photo by Anna Vasileva

When will Metlen's EPC project be completed?

All projects are slated for delivery by the first quarter of 2026. In addition to the EPC work, Metlen is also developing its own battery storage project in Chile with a capacity of 1,607 MWh. That project, called Mesembria, is expected to be finalised by the fourth quarter of 2025, the company said.

These contracts, signed in early 2025, involve the implementation of 190.5 MWp of solar power capacity and over 2,500 MWh of battery energy storage systems (BESS), Metlen said. All ...

Canadian Solar Inc.'s subsidiary, e-STORAGE, has secured a turnkey EPC contract to supply a 98 MW/312 MWh DC Battery Energy Storage System (BESS) for the Huatacondo project in ...

Canadian Solar's energy storage subsidiary, CSI Energy Storage, announced on October 1, 2024, that it had secured an engineering, procurement, and construction (EPC) contract to deliver ...

EDF power solutions Chile is at the forefront of developing both short- and long-duration storage projects, including pumped storage plants and other innovative technologies. These ...

Why Chile's Energy Market is Ripe for Storage Solutions a country where the Atacama Desert's solar potential could power entire continents, yet energy storage remains the missing puzzle ...

Currently, e-STORAGE operates two fully automated, state-of-the-art manufacturing facilities with an annual production capacity of 20 GWh energy storage solutions.

These partnerships reflect Metlen's reputation as a trusted EPC contractor in the region, while also showcasing
