Are residual current circuit breakers mandatory in Singapore?

Note: Singapore has mandated the installation of residual current circuit breakers (RCCBs) in all Housing Board (HDB) flats and private dwellings by July 1, 2025. Non-compliance may result in a fine of \$5,000.

What is an electrical breaker?

An electrical breaker is a general term covering all types of circuit breakers used to protect electrical circuits. These devices detect faults such as excessive current or leakage and disconnect power before damage occurs. Whether for residential or industrial use, electrical breakers form the backbone of any safe power distribution system.
