

The ongoing debate over solar and wind subsidies is shaping the future of American energy, with significant impacts on electricity costs, job growth, and climate goals.

In a move shaking up the climate and business communities, the Trump administration has officially slashed federal subsidies for solar and wind power--triggering backlash from ...

The GOP tax and spending bill would eliminate federal tax credits for solar and other clean energy. NPR's Ayesha Rascoe talks with Doug Lewin, host of the Energy Capital Podcast, about the ...

These are among the major clean energy investments now in question after Republicans agreed earlier this month to quickly end U.S. subsidies for solar and wind power as part of their ...

The Trump administration has targeted solar and wind power and energy efficiency programs for funding cuts in its push to reshape the nation's energy future.

Enphase, which produces microinverters that turn solar energy into usable power, said last month it would cut 160 jobs, or 6% of its workforce, and reduce operating costs because of the policy ...

On July 8, 2025, President Trump signed an executive order that fundamentally alters the trajectory of U.S. renewable energy policy. The order specifically targets government subsidies for solar and wind ...

The sprawling Republican budget bill approved by the Senate Tuesday removes a proposed tax on solar and wind energy projects but quickly phases out tax credits for wind, solar and other renewable energy.

ENDING AMERICAN DEPENDENCE ON UNRELIABLE ENERGY SOURCES: Today, President Donald J. Trump signed an Executive Order to eliminate subsidies for unreliable "green" ...
