

With a 300A JBD BMS, plug and play Victron integration, serviceable metal case, JK 2A Active Balancer input, optional 4S or 4P configuration, on/off switch and RS485/CAN inputs - the Drift PRO is no ...

The Fogstar Drift PRO Active Balancer (4S) intelligently redistributes the current from cells with a higher State of Charge (SOC) to those with lower levels, creating an even balance.

Meet the Fogstar Drift Pro, your new secret weapon for all your power needs. It's not just a battery, it's a powerhouse equipped with a next-gen 300A JBD BMS, making it the largest, most progressive ...

With a 300A JBD BMS, plug and play Victron integration, serviceable metal case, JK 2A Active Balancer input, optional 4S or 4P configuration, on/off switch and RS485/CAN inputs - the Drift PRO is no ...

Ensure optimal performance and longevity of your LiFePO4 batteries with the Drift Pro Active Balancer 2A 4S. Engineered to actively balance 4-cell lithium iron phosphate battery packs, this unit helps ...

In our Drift PRO we've made the decision to use an external Jikong (JK) Active Balancer (one you plug in manually) not a permanent in-built one, this gives our customers the best of both worlds - the ...

The balancer actively redistributes energy by selectively transferring charge between cells. Typically employed in lithium-ion battery systems, it monitors cell voltages and ensures that all cells reach and ...
