

What is the European 5G Observatory?

The European 5G Observatory tracks progress in 5G infrastructure deployment across the EU and other regions worldwide according to base stations deployment, edge nodes and infrastructure sharing agreements. Source: IDATE estimates and regulators' data. Reporting period: at December 2024. Source: IDATE estimates and regulators' data.

Will the EU achieve 100% outdoor 5G population coverage?

This research, which leverages Speedtest Intelligence's data, aims to independently benchmark progress toward the EU's flagship 5G deployment objectives, including the Digital Decade 2030 goal of achieving 100% outdoor 5G population coverage, using the world's largest consumer-initiated dataset.

Is 5G available in Europe?

By contrast, 5G Availability in Central and Western European laggards such as Belgium, the United Kingdom, and Hungary remains less than half that of the leaders. On average, EU mobile subscribers spent 44.5% of their time connected to 5G networks in Q2 2025, up from 32.8% a year earlier.

Is 5G sluggish in Europe?

The deployment and adoption of 5G SA in Europe remain sluggish, increasing slowly from a very low base and further widening the region's gap with North America and Asia. Spain stands out as a clear leader in 5G SA deployment, reaching an 8% Speedtest's sample share compared with the EU average of just 1.3% as of Q2 2025.

The Europe 5G base station market was valued at US\$ 5,854.74 million in 2022 and is expected to reach US\$ 18,890.44 million by 2030; it is estimated to register a CAGR of 15.8% from 2022 to 2030. ...

The European 5G Observatory tracks progress in 5G infrastructure deployment across the EU and other regions worldwide according to base stations deployment, edge nodes and ...

The 5g base station market in Europe is expected to reach a projected revenue of US\$ 44,815.4 million by 2030. A compound annual growth rate of 33.8% is expected of Europe 5g base station market ...

5G Base Station Market Analysis APAC, Europe, North America, Middle East and Africa, South America - China, South Korea, Japan, Germany, US, UK, Australia, France ...

As of 2024, Germany had the most 5G base stations among European Union (EU) member states, with over ***** base stations installed.

The global market size for 5G Outdoor Macro Base Stations was valued at approximately USD 10.25 billion in 2023, and it is projected to grow to USD 35.18 billion by 2032, reflecting a compound annual ...

Discover how spectrum policy and strategy shape 5G coverage across Europe, with Nordic and Southern

nations leading and Spain ahead in 5G SA.

Europe 5G Base Station Body Market size was valued at USD 1.5 Billion in 2022 and is projected to reach USD 5.

Discover the booming 5G Outdoor Macro Base Station market: Explore key drivers, trends, restraints, and leading companies shaping this multi-billion dollar industry. Analyze market ...
