

How many charging stations are there in Addis Ababa?

As Electric Vehicles are relatively new to the country, there is limited infrastructure prepared for them, including charging stations. Bareo Hassen, State Minister of Transport and Logistics, revealed that to accommodate the growing fleet of electric vehicles, 60 charging stations have been deployed across various locations in Addis Ababa.

Are electric cars the future in Ethiopia?

"There's no doubt that EVs are the future. It's only a matter of time before they dominate the streets of the capital," remarked Moges Negash, an automotive engineer and electric car expert. Ethiopia spent \$6 billion on fuel imports in 2023, over half of which went to fueling vehicles, according to the Ethiopian Ministry of Transport and Logistics.

Are EV buses coming to Addis Ababa?

The first EV buses have already started to operate in Addis Ababa, and locally assembled EV minibuses are transporting passengers from one end of Addis to the other. The government has also allowed duty-free importation of EV parts to promote EV use.

Is Ethiopia a leader in Africa's electric vehicle transition?

Ethiopia has emerged as an unexpected leader in Africa's electric vehicle (EV) transition. In 2023, the country became the first in the world to ban imports of internal combustion engine (ICE) vehicles.
