

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Is Brazil ready for utility-scale energy storage?

"The demand for utility-scale energy storage in Brazil is poised to grow exponentially as the country continues its transition to renewable energy and strengthens its grid infrastructure," said Marcelo Rodrigues, Sales & Innovation VP of UCB.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.

Can UCB and Powin shape the future of Brazil's power sector?

With the upcoming LRCAP 2025 auction anticipated to drive significant investment in energy storage, UCB and Powin's strategic partnership is well-positioned to shape the future of Brazil's power sector.

The partnership comes at a pivotal time as Brazil prepares for its first Capacity Reserve Auction (LRCAP) in 2025, exclusively dedicated to energy storage. This collaboration aims to meet ...

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include ...

A recent example is a 1MWh thermal energy storage project by an Israel-based company, Brenmiller Energy, in partnership with Fortlev, the largest provider of water storage solutions in Brazil.

Brazil launches a 2026 energy storage auction to boost large-scale battery projects and define storage's role in its evolving power market.

83,000+ key contacts related to companies and projects Analysis, reports, news and interviews about your industry in English, Spanish and Portuguese.

WEG has announced plans to build a 2 GWh battery energy storage systems plant in Itajaí, Brazil, backed by BRL 280 million in financing. The automated facility will feature testing labs, ...

Powin is a U.S.-based global energy storage integrator on a mission to become the world's most trusted energy storage provider, enabling clean and reliable energy. With data-driven ...

Why Brazil's Energy Storage Market Is Making Global Headlines Let's face it: when you think of Brazil,

solar farms and battery tech might not be the first things that come to mind. But hold onto your ...

Companies from China, Norway and Canada are preparing to develop pilot projects for battery energy storage systems (BESS) in Brazil.

Brazil's push to integrate energy storage into its power system is moving from pilot deployments toward industrial scale, with WEG confirming plans to build a dedicated battery energy ...
