

Who makes the best solar string inverter?

We review the best grid-connect solar inverters from the worlds leading manufacturers Fronius, SMA, SolarEdge, Fimer, Sungrow, Huawei, Goodwe, Solis and many more to decide who offers the highest quality and most reliable solar string inverters for residential and commercial solar.

Are SMA Solar inverters reliable?

SMA inverters have a proven track record for reliability and are generally considered one of the highest-quality inverters available. Local service and support are excellent, and SMA provides an optional 10 to 20-year extended warranty. See our detailed SMA solar Inverter review.

Are string solar inverters a good choice for utility-scale solar farms?

String solar inverters up to and above 100kW are also increasingly popular for utility-scale solar farms due to the advantages of string-level monitoring and ease of servicing compared to central inverters. Below is our list of the most popular 3-phase inverters on the Australian market in the 8kW to 30kW and 30kW to 100kW categories.

What is a hybrid inverter?

Hybrid inverters, sometimes called battery-ready inverters, are similar to string solar inverters but enable the direct connection of a battery storage system to allow greater self-sufficiency using solar. Most hybrid inverters provide basic backup power during a blackout but are generally not designed for continuous off-grid use.
