

Hot-dip galvanized U-shaped channel steel for photovoltaic bracket

The hot-dip galvanized surface treatment ensures its longevity, making it suitable for outdoor use. The C Type Steel Channel can be used as a photovoltaic bracket steel channel, providing a secure and ...

Parco Engineers provides durable hot-dipped galvanized unistrut & GI strut channel (41x21-41x41mm, min 86 microns). ISO 45001 & UAF-certified for HVAC, solar & conduit support systems.

We have our own factory with an area of 150,000 square meters, producing a full range of solar photovoltaic products. For both sample orders and large orders, we can guarantee timely delivery.

With its U-Channel shape and steel material, our Strut Channel product is perfect for your Photovoltaic Bracket needs. The color of the product is silver and is customizable to your preferences.

Design: The U-shaped cross-section offers an excellent strength-to-weight ratio, providing robust support for solar modules while minimizing the overall weight of the mounting system.

Jchx ISO Certification Hot-DIP Galvanizing Steel Channel U Shape is highly corrosion-resistant and popular photovoltaic bracket variety. It not only has good yield strength and tensile strength, but also ...

Parco Engineers provides durable hot-dipped galvanized unistrut ...

Supplier highlights: This merchant is a manufacturer and trader, offering quality control capabilities and minor customization services.

The company has an excellent management team and a professional R & D and production team, and the main products include high cost-effective automatic tracking photovoltaic bracket and fixed ...

The expertly crafted Factory Wholesale Hot Dip Galvanised Steel Aluminum Alloy PV Mount Rail is constructed from high-grade carbon steel, enhanced through an Anodic oxidation coating treatment.

High-quality U channel steel for construction, steel structures, and industrial applications. Available in galvanized, hot-rolled, and custom sizes.
