Each cabinet can be equipped with an alarm device for door opening, an environmental monitoring system and air conditioner for cooling for more than 60° environment according to customers' special request.

Each outdoor photovoltaic telecom energy cabinet is built for harsh outdoor telecom and edge usage, characterized by durability, flexibility, and intelligent control to provide unshakeable power supply.

It integrates batteries, Battery Management System (BMS), Energy Management System (EMS), modular Power Conversion System (PCS), and a fire protection system within the cabinet.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration.

Wind and photovoltaic integrated outdoor cabinet HJGF-XFD-01 The wind and photovoltaic integrated outdoor cabinet is an outdoor integrated cabinet made of high-quality metal sheet materials.
