

What is the best way to open a locker?

The best way to open a locker depends on the type of lock it has. The most common locks include traditional combination locks, keyed locks, resettable combination locks, and electronic keypad locks, each with its own unlocking method.

How do you lock a locker if you don't have a key?

Many lockers come with a backup key. Schools, gyms, and workplaces often have master keys. If the locker is personal property, using a lock-picking kit may help. For high-security locks, a professional locksmith can assist. If no other option exists, use bolt cutters (only if you own the lock).

How do you open a locker if it won't open?

Open the lock. Pull the lock open and out of the hole, or pull the latch or handle, if there is one. Otherwise, tug on the knob to open the locker. If your locker just won't open, try it again with the last number being five before or after your "official" last number.

Can you open a locker without a key?

Before we reveal our solutions, it is important to note that opening a locker without a key must be done in the correct way. Here is why: Picking or tampering with a lock without permission is usually illegal, as it's considered unlawful entry. This could ultimately result in fines, legal charges, or even criminal prosecution.
