

Hybrid type of folding container for wastewater treatment plants

Based on AAO-MBR technology, our patented intelligent integrated waste water treatment container is a new type of waste water treatment container with high-throughput plate microfiltration membrane as the core ...

Containerized package plants offer a portable, plug-and-play solution for water and wastewater treatment. They are ideal for remote locations, emergency response, or temporary needs, providing flexibility and ...

These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.

The system's proprietary fixed-film media (see inset picture at left) is fully submerged, allowing for a longer sludge age and higher tolerance of shock loads. The FAST™ system comes available in container, modular ...

KLARO Container is a flexible and mobile wastewater treatment system that can be used where a wastewater treatment system is required but there is no connection to the sewer system.

With its mobility, high effluent quality, and ease of installation, it is an ideal solution for industries, hotels, and communities seeking fast and reliable wastewater treatment without the hassle of building a traditional plant.

In short, Aiga Concept's wastewater treatment plant containers are versatile solutions in 20' and 40' containers that combine efficiency, durability, adaptability and quick assembly.

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure.

Containerized wastewater treatment plants represent a significant advancement in the field of wastewater management. Their modular, scalable design, combined with modern treatment technologies, ...

A ClearFox™ containerized wastewater treatment system is a pre-assembled, modular solution housed within ISO shipping containers. These systems are designed for efficient wastewater treatment across various ...
