

Jerusalem shuts down base stations to save energy

Will Israel cut off its electricity supply to Gaza?

Israel said Sunday that it would be cutting off its electricity supply to Gaza. Israel's Energy Minister Eli Cohen said he signed an order that would shut off electricity to Gaza "immediately." "Enough with the talk, it's time for action!" he said in a post online.

When did Israel restore electricity to Gaza?

Just days after the war erupted on October 7, 2023, Israel cut electricity to Gaza. Israel restored electricity to Gaza in mid-2024.

Will Israeli electricity be restored if Israel shuts down a wastewater treatment facility?

The only point where electricity was restored, in July, was to power a wastewater treatment facility. Shutting down the facility could quickly lead to raw sewage flowing into the sea and reaching Israel's shores. Cohen's move is not expected to affect the electricity supply to the Gaza Strip, as power was cut off on October 7, 2023.

Why did Israel stop selling power to Gaza?

The new letter from Israel's energy minister to the Israel Electric Corporation tells it to stop selling power to Gaza. Israel had warned when it stopped all supplies that water and electricity could be next. Gaza has been largely devastated by the war, and generators and solar panels are used for some of the power supply.

Post-war, experts suggest Gaza needs a self-sufficient energy sector, like expanded solar with batteries, to reduce reliance on Israel. However, reconstruction lags amid ongoing conflict and ...
