

What is a Liahomco 70000 mAh power bank?

The Liahomco 70000mAh Power Bank offers a massive battery capacity that can recharge your smartphone multiple times, making it ideal for long trips, camping, or emergencies. Its 30W fast charging technology quickly powers your devices, saving you time by reaching up to 60% charge in just 30 minutes.

Should you buy a 5000 mAh battery pack?

Since they come with multiple ports and fast charging speeds, they're better at topping up your gear than regular 5,000mAh or 10,000mAh power banks. If you're on the hunt for something in the range of 20,000mAh or more, bulk is to be expected. However, you'd still be surprised at just how compact some of these higher-capacity battery packs can be.

Should I use a USB-C port if I have a large battery?

Most USB-C ports come with the Power Delivery standard (PD), which signifies that a USB-C port offers considerably faster charging and data speeds. So, if a USB-C port only offers 15W, you should skip it. As such, when you're looking to charge a device with a massive battery, not just USB-C but also Power Delivery is a must.
