

## Large-scale outdoor telecom enclosure custom factory direct

What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

Why is a custom telecom enclosure necessary?

Custom outdoor telecom enclosures from KDM are necessary because they help you constantly adapt off-the-shelf product requirements. KDM relies on both custom and standard NEMA standard telecom cabinets to protect their internal equipment. Our telecom enclosures are manufactured with the highest quality standards under stringent ISO 9001:2005 manufacturing & quality management system.

What is KDM outdoor telecom enclosure made of?

KDM outdoor telecom enclosures are made of stainless steel (including 304 stainless steel and 316 stainless steel), galvanized steel, and carbon steel. This makes them sturdy and reliable. At KDM, we provide a large selection of outdoor telecom enclosure sizes, types, and shapes. We can help size the right enclosure for your site.

What is an outdoor Telecom cabinet?

An outdoor telecom cabinet protects the cables and equipment that process and reroute information for our communication needs via the internet, television, and other applications. These enclosures include organizing racks and thermal management systems, among other features. What is a fiber cabinet?
