Suntech, founded in 2001, as a famous photovoltaic manufacturer in the world, is devoted to the R & D and the production of crystalline silicon solar cells and modules for 20 years.

Here, we study and report the results of climate change implications of reshoring solar panel manufacturing as a robust and resilient strategy to reduce reliance on foreign PV panel...

BEIJING, Aug 19 (Reuters) - China's efforts to curb industrial overcapacity face their first test in the indebted and bloated polysilicon sector, a key cog in solar cell production, where...

At present, perovskite solar cells (PSCs) have shown superior photovoltaic performance with a high power conversion efficiency (PCE) over 22%. However, there are very few devices with high PCE...

UL Solutions can help you demonstrate your commitment and accountability to common technical requirements for solar factories with an objective factory certification.

Dr. Liang got his doctor's degree of economics at Nankai University (2003) and accomplished the senior executive training program on leadership at Kennedy School of Government, Harvard University...

The method of connecting the common point of the LCL filter capacitor of the three-level grid-connected inverter to the midpoint of the DC side can effectively suppress the leakage current between the DC ...

Do you represent PV power plants, EPCs, wholesalers, PV project developers or other stakeholders and want to ensure the quality of your future PV modules? Then let our team of local supervisors conduct ...
