

With excellent technical research and development team and advanced production equipment, it has established a good reputation in the solar photovoltaic industry, and its products are exported to ...

Today, LONGi is part of a community of world-leading producers of monocrystalline silicon panels. In 2016, they launched mono-PERC modules with integrated PERC technology on monocrystalline ...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high-quality, reliable ...

LONGi leads the solar energy revolution with PV technology, delivering high-efficiency modules, solutions, and full-cycle quality assurance.

LONGi Co., Ltd. offers high-quality solar photovoltaic panels and energy storage solutions for sale. Explore our advanced, efficient solar products today.

Chinese solar manufacturer Longi unveiled a new PV module with 25.9% efficiency at the 2025 SNEC trade show this week in Shanghai, produced using both low- and high-temperature ...

These photovoltaic panels are built using advanced technologies, with high-efficiency monocrystalline solar cells, allowing for high conversion efficiency of solar energy into electricity.

Longi's monocrystalline PERC technology enables their panels to achieve exceptional efficiency levels. With high conversion rates, Longi solar panels can generate more electricity from ...

LONGi Solar, a Tier 1 solar panel brand, offers state-of-the-art solar technology features in their solar modules, including PERC technology. PERC cells allow solar panels to have a high cell efficiency.
