

What is Ontario's new lithium-ion battery storage project?

The province says the project is a lithium-ion battery storage facility developed by Potentia Renewables Inc. in partnership with the Algonquins of Pikwakanagan First Nation. It was procured through the Independent Electricity System Operator and will help bring Ontario's total energy storage capacity to nearly 3,000 megawatts.

What is a lithium-ion battery energy storage system?

Although energy storage comes in different shapes and sizes, the lithium-ion Battery Energy Storage System ("BESS") is the fastest emerging technology in North America and is planned to be deployed in the City of Ottawa with the Ottawa BESS 2 Project.

What is Canada's largest battery storage facility?

Nov. 12, 2025. (Andrew Adlington/CTV News Ottawa) Ontario Premier Doug Ford, flanked by his energy minister and leaders of the Algonquins of Pikwakanagan First Nation, broke ground Wednesday on a new battery energy storage facility in eastern Ontario, dubbed Canada's largest.

Should Ontario build a battery energy storage system?

The premier said building the country's largest battery energy storage system is part of ensuring Ontario's position as an energy superpower. "Every province, every state, and every governor I speak to, every senator, they need our power. Every jurisdiction in the world needs our power," Ford said.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.
