

The government is already partnering with the Inter-American Development Bank to plan new investments in renewable energy, which will help the country end its reliance on the imported ...

Excited to announce that I will be speaking at the 5th Edition of the Suriname Energy, Oil & Gas Summit (SEOGS), taking place from 17-20 June 2025 in Paramaribo.

This paper explores the potential of hydrogen geologic storage (HGS) in China for large-scale energy storage, crucial for stabilizing intermittent renewable energy sources and managing ...

Suriname have undertaken a pilot to use EnergyMetric to understand the demand of their main electricity grid and learn how future renewable energy infrastructure can be used to meet that demand.

Paramaribo's streets now hum with a different kind of energy. As solar panels multiply across rooftops and the BESS facility silently balances the grid, Suriname demonstrates how mid-sized nations can ...

Suriname's leaders have a cautious optimism that they can avoid the fate of other countries that have developed oil without planning for the energy transition and escape a legacy of ...

African Energy Chamber Executive Chairman NJ Ayuk will lead a Just Energy Transition Masterclass at the Suriname Awareness Symposium (SAS) - taking place January 27-28 in Paramaribo, Suriname.

Building on key themes such as investment, development and collaboration, the masterclass will offer insight into balancing multi-faceted goals of addressing energy poverty with ...

The talks, held at the Presidential Palace in Paramaribo on September 17, focused on strengthening institutional capacity, diversifying the economy and positioning Suriname to benefit ...

Summary: The recently signed Paramaribo energy storage cell project marks a transformative step toward stabilizing Suriname's renewable energy grid. This article explores its technical framework, ...
