

Designed to function as a base station, the Quectel LR700A delivers precise GNSS corrections and positioning for high accuracy applications including smart agriculture and precision farming use cases, ...

Quectel has introduced a smart connected GNSS receiver, an all-in-one high performance quad band base station solution, capable of connecting to the cloud to deliver GNSS correction data, usable either ...

HYFIX.AI announces the availability of a mobile centimeter GEODNET base station using the LC29H module from Quectel Wireless Solutions. Quectel launches high-performance single-band GNSS positioning module ...

Various policies that governments have adopted, such as auctions, feed-in tariffs, net metering, and contracts for difference, promote solar adoption, which encourages the use of solar technology in ...

FRANKFURT, Germany- (BUSINESS WIRE)-Quectel Wireless Solutions, an end-to-end global IoT solutions provider, has introduced the Quectel LR700A smart connected GNSS receiver, an all-in-one ...

Browse our vast range of cellular, GNSS, and Wi-Fi modules by technology, form factor and region. Find the ideal antenna for your IoT project - view by technology, placement and mounting type. Our EVB kits offer a ...

Deep in the vast desert interior, a solar-powered communication base station operates continuously, delivering stable signals that connect nomadic communities and remote work sites to the outside world-- while its fuel ...

The Quectel LR700A supports 1040 channels, enabling flexible data transmission and remote management with cellular, ethernet and Wi-Fi networks.

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by the DC load of the base ...

Quectel has introduced an all-in-one high performance quad band base station solution, capable of connecting to the cloud to deliver GNSS correction data, for use either standalone or within an RTK station ...
