

# Regulations on land use for solar power generation

This page describes the patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact project development.

Regulations at 43 CFR 2800 identify requirements for solar development application and permitting. Applications for solar energy uses on ...

Explore how land use regulations for solar development shape project approval, environmental compliance, and community integration within the Solar Energy Law framework.

Regulations at 43 CFR 2800 identify requirements for solar development application and permitting. Applications for solar energy uses on public land are subject to paying cost-recovery fees and all ...

Explore land use regulations for renewable energy, covering solar, wind, and biomass projects, while navigating federal, state, and local guidelines effectively.

New report and interactive map provide a detailed look at the diversity of renewable energy siting and permitting regulations and processes across the United States, profiling all 50 states plus Puerto Rico.

Explore the essential permitting and land use requirements for constructing solar energy facilities, including state and local siting authority, regulatory approvals, and potential challenges.

This report provides data and analysis of the land use associated with U.S. utility-scale 2 ground-mounted photovoltaic (PV) and concentrating solar power (CSP) facilities.

Discusses the land use and energy permitting processes for permission to build a solar array and provides examples of why permitting processes can affect farmland solar development.

system in the European Union (EU) would require 45% of the combined land area of the 27 EU countries. The same study found that an all-solar energy system in the United States would require over five times the total ...

Local zoning ordinances use a range of approaches to restrict or ban renewable energy systems of different types. These approaches are categorized below, with more information and specific examples of ordinances ...
