

Rural photovoltaic solar panel scam revealed

Are solar panels a scam?

Scammers often advertise "\$0 down on owning solar panels" or "solar panels at no cost" but don't disclose that the homeowner won't own the panels. Lease and PPA agreements typically prevent homeowners from benefiting from most federal and state incentive programs and also have hidden fees and unfriendly financial terms.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.
