

Arizona, Nevada and Mexico will be subject to substantial cuts from their Colorado River allocations for the third year in a row, the Bureau of Reclamation announced Friday.

Renewable energy, particularly wind and solar power, is receiving substantial subsidies in many countries worldwide. Unfortunately, wind and solar energy are unreliable and very expensive, ...

Congress is currently debating the fate of costly renewable subsidies within the Inflation Reduction Act, which would increase wind and solar power, causing utility rates to increase, and ...

The Inflation Reduction Act of 2022 (IRA), President Biden's signature climate bill, passed solely by Democrats, contains lucrative, essentially uncapped subsidies for wind and solar-generated ...

Let's eliminate any and all subsidies for wind and solar -- and coal, oil, and methane as well. Project 2025 is nothing if not a giant subsidy for the fossil fuel industry.

Subsidies are meant to drive prices down and boost supply. But subsidizing wind and solar has done exactly the opposite.

As part of this effort, the Department will address provisions in the One Big Beautiful Bill Act to eliminate longstanding right-of-way and capacity fee discounts for existing and future wind and ...

To protect reliability, lawmakers should look to repeal the IRA extensions of wind and solar tax credits as a first step toward repairing the damage that these subsidies have done to ...

The government delivered a shock to the renewable energy industry when it took away subsidies for solar and wind as part of the One Big Beautiful Bill Act. It's a shock the industry can...

Instead, lawmakers have generally opted for subsidies for energy sources that have lower carbon footprints, including wind.
