

BoxPower's flagship SolarContainer is a fully integrated microgrid-in-a-box that combines solar PV, battery storage, and intelligent inverters, with optional backup generation.

Integrated Solar-Wind Power Container for Communications This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolarBox Mobile Solar Containers that meet site needs reliably ...

Solar containers provide a complete package of power generation with military-grade robust protection. They are not just solar panels in a box; solar panels, intelligent energy ...

Ready to Transition Beyond Diesel? Discover the next generation of mobile, autonomous clean power. MOBISMART integrates solar, fuel cells, and batteries into hybrid systems that deliver where diesel ...

Perfect for communication base stations, smart cities, transportation, power systems, and edge sites, it also empowers medium to high-power sites off-grid with an energy-efficient, hybrid renewable solution.

The Sactec Solar SunMax Trailer 5000, a mobile, containerized hybrid power solution, combines solar, wind, battery, and diesel power to deliver up to 23.5 KWh per hour of energy.

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.
