

Whether it is an oversized and over-wide container for transporting large goods, or an explosion-proof container for special environments, we can provide professional and reliable customization services. a?]

Discover explosion-proof refrigerated containers with CE/ISO certification, airtight storage & mobile cold room solutions for food, hotels, and farms.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Our solar-powered walk-in cool room is a trusted solution across various industries, including events, hospitality, and off-grid tourism. It has also been deployed by governments and aid organizations to ...

Construction: These containers are constructed with robust materials like steel or concrete for the walls, roof, and floor. Additional blast-resistant panels or layers are integrated to absorb and disperse the ...

You get a safe, strong, and easy system for disaster relief or off-grid use. The technology in retractable solar panel containers gives you steady power and peace of mind in any weather.

Learn about the 4 pillars of next-gen functional container design for oil & gas, chemical, and renewable energy industrial safety. At TLS, we've developed a next-generation philosophy for ...

Equipped with integrated solar panels, LiFePO<sub>4</sub> batteries, and a high-efficiency refrigeration system, it provides stable, low-temperature storage for agriculture, food distribution, logistics, and ...

Equipped with integrated solar panels, LiFePO<sub>4</sub> batteries, and a high-efficiency ...

Ideal for energy storage projects, solar farms, EV charging hubs, and industrial backup applications requiring certified fire protection and explosion-proof design.

At the container level, sensors track combustible gases (H<sub>2</sub>,CO), smoke, and temperature. When flammable gases generated by thermal runaway inside a module spread to the container-level ...
