

RECAPO is the leading supplier of solar electricity and accessory products to rural and semi-urban communities in Malawi. Since 2014, we have pioneered renewable energy solutions to replace ...

Self Help Africa has installed Malawi's first smart-metered, solar-powered mini-grids in a pilot project that has brought electricity to two villages in remote parts of the country.

The reduced cost of solar electricity has made electricity access affordable even to low-income households. Off-Grid electricity is playing a critical role in rapidly scaling up electricity access ...

A community of nearly 9,000 homes in rural Malawi last month became the country's first village to receive 100 percent universal access to solar power - a move that it is hoped could inspire...

Today, SolarAid says it has installed solar photovoltaic (PV) systems in all of the nearly 9,000 households in the village. Kasakula has a population of just over 20,000. Most of the village's ...

A remote village in Malawi has achieved a groundbreaking milestone by becoming the first community in rural Africa to reach 100% solar power coverage.

Widespread Adoption: The project has successfully installed solar photovoltaic (PV) systems in all 9,000 households in the remote, low-income village, which previously relied on paraffin ...

If you are interested in learning more about the intricacies of solar panel production, from the necessary raw materials to the advanced manufacturing machines required, we invite you to ...

As Malawi pursues its Vision 2063 goal of 50 percent national electricity access by 2030, off-grid solar continues to play a vital role, illuminating not just homes, but pathways to better health, ...

We currently import, assemble, distribute and service four key solar products: lights, irrigation pumps, e-cookers and batteries. These products are sold through a network of independent ...
