

In 2023, renewables generated 40% of Italy's electricity, a major increase compared to a decade ago. Solar pv is at the forefront, with over 37GW installed, driven by large-scale projects in southern regions ...

Italy brought online 6,437 MW of new solar photovoltaic (PV) capacity in 2025, registering a 5% year-on-year decline due to a drop in residential and commercial and industrial (C&I) deployments.

Italy installs 6.4 GW of solar in 2025 The country's cumulative installed PV capacity reached 43.5 GW at the end of December, according to the latest figures released by Italian grid operator Terna.

The press release highlights a structural shift in Italy's energy landscape, with solar power becoming integral to the national energy mix. The surge in installations reflects growing awareness of the ...

In 2024, Italy achieved its strongest year of solar growth in over a decade, installing 6.7 GW of new photovoltaic (PV) capacity and bringing cumulative capacity to 37 GW. PV generation reached 36 TWh, covering about ...

After hydroelectric power, solar energy is the star performer of our green energy sources. Photovoltaic energy, in particular, accounts for approximately a quarter of the total green energy produced in Italy (2023 data).

Italy's photovoltaic market is soaring past 40 GW in 2024. Discover the key drivers, government incentives, and future outlook for solar installations in Europe's second-largest market.

MILAN, Jan 21 (Reuters) - Italian solar power production rose 25% last year compared with 2024 to a new record of 44.3 terawatt hours (TWh), the country's power grid operator Terna (TRN.MI)...

Solar power is an important contributor to electricity generation in Italy, accounting for 12.3% of total generation in 2023, and with a total installed capacity of 36.01 GW. [1][2] As of 2023, government plans are targeting ...

The Italy Solar Energy Market is valued at USD 18 billion, based on a five-year historical analysis, reflecting strong growth in installed photovoltaic capacity and steady investment flows across residential, commercial, ...
