

Norwegian PV developer Scatec ASA has switched on a hybrid solar and battery storage facility in the Northern Cape province of South Africa. A 540 MW solar and 225 MW/1,140 MWh ...

The South Africa Solar Energy Market size worth 9.76 gigawatt in 2026 is growing at a CAGR of 11.58% to reach 16.88 gigawatt by 2031. Canadian Solar Inc., IBC Solar AG, Segen ...

A global 3-day conference with over 200 speakers covering the latest trends, market disruptors and technologies shaping the energy sector. From keynote presentations, practical case studies and ...

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec's 225MW/1,140MWh Kenhardt ...

South Africa is one of the leading renewable energy markets in Africa, with vast solar resources and ambitious clean energy targets. However, the country faces a familiar challenge: how ...

South African homes need two-way meters so that they can feed extra solar power from home systems and electric vehicles back to the grid.

Solar parks and grid-scale batteries are set to deliver significant new capacity to South Africa's grid in 2026. Several major renewable energy projects currently under construction will go ...

Explore the best solar battery storage options for South Africa. Learn how to choose, compare, and safely buy solar batteries online or from China.

South Africa urgently needed over 360 megawatts (MW) of additional storage, and testing by the state-owned utility, Eskom, confirmed that grid-scale battery storage technology could ...

The session highlighted the critical role of solar power and energy storage in enhancing energy security and supporting Africa's energy transition toward sustainability.
