

Germany-based EV charging and BESS integrator ADS-TEC Energy has installed eight units comprising a 20MW battery energy storage system (BESS) in Sweden. The large-scale storage containers have ...

Stockholm Exergi has initiated construction of a significant Carbon Capture and Storage (CCS) facility at the Värtaverket district in Stockholm. The project aims to capture around 800,000 tonnes of CO₂ ...

The smart, highly flexible industrial and commercial storage systems which are developed and built in-house at ADS-TEC Energy support the economic transition to a sustainable and secure ...

Just last month, Stockholm unveiled Northern Europe's largest lithium-ion storage array - 150 connected containers storing enough energy to power 45,000 homes during winter blackouts.

Stockholm Exergi has announced that it is to build one of the world's largest facilities for capture and permanent storage of biogenic carbon dioxide. The investment decision marks a major ...

As the world races toward decarbonization, Sweden's new energy storage technology is turning heads globally, blending Nordic pragmatism with breakthroughs that even Elon Musk might ...

Located in the Energy Port in Värtaverket, Sweden the project, known as Beccs Stockholm, will be Sweden's first large-scale bioenergy plant with carbon capture and storage (CCS). ...

These modular systems combine solar panels, energy storage, and smart management to deliver reliable power. Whether you're a project developer, city planner, or business owner, this guide ...

Combining CO₂ capture with heat recovery in Europe's largest biomass-based Combined Heat and Power plant in Stockholm, we will capture and permanently store large quantities of biogenic CO₂, ...
