

# The latest news on photovoltaic energy storage is good

Energytrend is a professional platform of green energy, offering extensive news and research reports of solar PV, energy storage, lithium battery, etc.

"The combination of solar PV and batteries is today competitive with new coal plants in India. And just in the next few years, it will be cheaper than new coal in China and gas-fired power in ...

The Governor of Illinois, JB Pritzker, has signed a clean energy bill into law that will boost solar PV and energy storage investments in the state, among others.

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, solar energy, policy & projects.

During the first nine months of 2025, solar and battery storage have dominated growth among competing energy sources, according to the EIA.

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

Even as the Trump administration rolled out a series of anti-clean energy policies, solar and storage still accounted for 82% of all new power added to the grid in its first six months.

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

Standard solar panels lose efficiency as temperatures rise. But a new study, published in The Journal of Chemical Physics, shows that in special "solar-plus-storage" devices, heat can ...

With the right market alignment and policy support, storage can strengthen the grid, lower costs and improve long-term energy security. Energy independence can't be achieved by doubling ...
