Will DTEK build a 200MW battery energy storage system in Ukraine?

DTEK unveils EUR140m plan for 200MW battery energy storage systems in Ukraine. (Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

When will the new energy storage systems be operational in Ukraine?

DTEK Group aims to commission the new storage systems by September 2025. Once operational, these energy storage facilities will provide ancillary services to Ukraine's Transmission System Operator Ukrenergo. When will the following technologies start to tangibly disrupt your industry?

Can battery technology decentralise Ukraine's energy system?

Battery technology plays a crucial role in decentralising Ukraine's energy system to mitigate the impact of energy supply disruptions caused by Russia, said the energy investment company.

How will Bess impact Ukraine's energy supply chain?

Meanwhile, integrating BESS will significantly enhance energy diversification and allow for flexibility in the energy supply chain. Incorporating both technologies will help to stabilise Ukraine's grid during peak demand periods, reducing the frequency and duration of power outages and ensuring uninterrupted electricity supply.

VOLTAGE Group delivered 20 MW / 40 MWh at Ukraine's largest BESS, strengthening energy resilience with world-class civil and electrical works.

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine's energy security by lending EUR22.3 million to private Ukrainian energy company Power One for the ...

Find the Latest Battery Energy Storage System (BESS) Projects Around the World Gain exclusive access to our industry-leading database of Battery Energy Storage System opportunities ...

Ukrainian energy behemoth DTEK has hired Fluence Energy to supply and install six large-scale battery energy storage systems (BESS) with 200 MW and 400 MWh capacity for EUR140 ...

DTEK Group announced a EUR140m investment to construct a series of battery energy storage systems (BESS) with a combined capacity of 200MW.

DTEK and Fluence have begun commissioning Ukraine's largest battery storage project ahead of the country's crucial winter heating season.

DTEK and Fluence have put a 200MW/400MWh battery energy storage system (BESS) portfolio in Ukraine into commercial operation.

Ukrainian power generation container house BESS

September 23, 2024: DTEK, the largest private investor in Ukraine's energy sector, plans to invest EUR140 million (\$156 million) in building "a series" of 200MW energy storage systems despite the war with ...

DTEK and Fluence Energy have entered the commissioning phase for Ukraine's largest battery energy storage system (BESS) - 200MW of capacity spanning six sites across the country. ...

DTEK Group, in collaboration with Fluence, has launched Ukraine's largest battery energy storage system, with a total capacity of 200 MW. Six new BESS connect...
