

# Vertical Labeling Server Racks for Border Posts

Where are server racks made?

Since 1999, we have provided server racks, cabinets, and enclosures that continuously satisfy our customer's high standards and are Made in the USA! Our IT products are flexible and compatible with all rack mount servers or other electronics, to adapt to changing needs.

What is a 4 post rack?

4 Post racks are the standard for full servers. They can support thousands of pounds, reach 70U in height and fit any kind of IT equipment that needs to be mounted. If you need extra security, expandability or a high weight capacity, open or enclosed 4 post racks are the best option.

What is a 2 post rack?

2 Post racks, also known as telco or relay racks are built to house lightweight equipment. This includes routers, switches, controllers or very thin servers. Additionally, 2 post racks are great for mounting shelves that support non rackable equipment.

What does it want in a server rack?

IT wants the server rack or network cabinet to be on time, assembled without problems, and with design that stands the test of time and best practice. - Both want cold rolled steel and innovation that keep up with the highest quality industry standards.
