

How do I charge my devices in Lisbon?

Purchase a reliable travel adapter that supports the Europlug (Type C) and Schuko (Type F) to keep your devices charged and ready to use. Once you have the appropriate travel adapter, charging your devices in Lisbon is a breeze. Locate the power socket in your accommodation or public spaces, and plug in your adapter.

Do you need a travel adapter in Lisbon?

To ensure compatibility with the power sockets in Lisbon, it's recommended to carry a travel adapter. A travel adapter allows you to connect your devices with different plug types to the local power sockets. These adapters are widely available in most electronic stores, travel supply shops, or even online.

What types of plugs are used in Lisbon?

In Lisbon, the commonly used plug types are Europlug (Type C) and Schuko (Type F). The Europlug features two round pins, while the Schuko plug has two round pins with two grounding clips on the sides. Make sure your devices are compatible with these plug types or consider bringing suitable travel adapters.

How do I choose a USB-C adapter for Portugal?

Most Portugal-bound trips benefit from Type C and E/F Euro-plug adapters, but not all adapters fit every country's outlets. Ports and Power: Decide how many devices you need to charge simultaneously. If you rely on USB-C PD for laptops or tablets, prioritize PD-enabled USB-C ports and higher total wattage (20W+).
