

With the target to reach 1,000MW of solar electricity by year-end to improve the national electricity supply, Zambia's "Solar Explosion" story is on course and in full swing.

"Our target is to have at least 200 solar mini-grids operational by 2030, ensuring that every rural district in Zambia has access to clean, affordable, and reliable electricity," said Makozi Chikote, ...

The Zambian government is pursuing investors for new solar projects in Zambia. Since Zambia relies on hydropower for 95 percent of their total power supply, solar can offer a solution.

According to Reuters, the Zambian government is pursuing investors for new solar projects in Zambia. The total amount of solar... Continue Reading ->

In a major push towards renewable energy, the country has unveiled the Presidential Constituency Energy Initiative (PCEI), a plan to deploy ...

Recognizing the long-term threat of climate disasters to energy security, ECA made a strategic decision in the third quarter of 2024 to install a smart solar power and battery system. The ...

Want to know more about off-grid, microgrid, mini-grid and utility scale solar segments in Africa? Read the report by SolarPlaza. In the report, SolarPlaza zooms in on individual solar cases. This way, the ...

Zambia inaugurated a 20 MW solar photovoltaic plant in Lusaka to diversify its power mix amid climate-driven hydropower constraints. Kiyona Energy, a ZESCO subsidiary, developed the ...

The simple, and safe way to buy domain names No matter what kind of domain you want to buy or lease, we make the transfer simple and safe. Here's how it works

Whether you should choose to buy or to lease a solar power system depends on your personal situation. Buying a solar power system will be cheaper in the long run, however, requires you to have the total amount ...

The complexity involved in the consultation and design of solar power systems, especially in the off-grid sector, can be an obstruction to many parties. SmartSolar provides the knowledge and tools to choose the best ...

The new mega solar project is expected to support economic activity by providing more reliable power to industrial zones, commercial centres, and rural communities connected to the grid.

The project supports Zambia's goals of economic development, energy security, and climate change mitigation by promoting renewable energy integration and reducing carbon emissions. The Chisamba ...

Thanks to the Indian Vice President, Zambia is welcomed into the International Solar Alliance. At a meeting in New Delhi, India, VP of India Shri Venkaiah Naidu stated this message to the Zambian ...

Zambia has officially signed a US\$100 million agreement for one of the largest standalone solar energy projects in Sub-Saharan Africa, outside ...
